

FINLAND'S MOST INSPIRING WORKPLACES

Eezy Flow's People Power® is one of the leading employee experience surveys in Finland, with 200,000 professionals responding each year. The survey uses Eezy Flow's reference framework to measure engagement, commitment, leadership and organisational performance. It provides a comprehensive snapshot of the employee experience and the prerequisites for strategy implementation from the employee perspective.

As a result comes Innostavimmat – Finland's most inspiring workplaces.

The most inspiring workplaces are ranked each year. The winners are announced at the Innostavimmat future seminar (Most Inspired-Future) in the spring. The awarded companies and organisations invest in developing their own organisation, employee wellbeing, operating culture and collaboration, and have achieved excellent results in their employee surveys.

Employee engagement and enthusiasm are a key source for motivation. Committed employees want to give their best and work together for the common good. A successful strategy, thriving culture and organisational growth are created together.
