Project type	Ship status	Design scope	Delivery year
Retrofit	Delivered	Basic, Detail	2009

Scope of Work for the Shipowner

- Basic and detail design for installing and integrating a diesel generator into the ship's existing systems, along with troubleshooting onboard and at retrofit shipyards during installation

Project Features

- Pre-installation of piping, cabling and auxiliary devices during normal operation
- Genset and exhaust piping installation during dry-docking
- Finalization of the installations and commissioning partially again at normal operation after dry-dock
- The work was completed in 2009

Additional Information

IMO number	9195200
Special features	Radiance Class diesel genset retrofit
