Main Dimensions

Dwt	7,000 t
GT	12,652
Capacity	7,000 dwt
LOA	125.4 m
Beam	25 m
Draught	7.5 m

Project type	Ship status	Design scope	Delivery year
Retrofit	Delivered	Detail	2014

Scope of Work for the Shipyard

Detail design for Ulstein Sea of Solutions B.V., including:

- Updating the hull production design documentation from NB-89 to NB-90, including modifications in classification and revisions to other basic design documents, based on source data and Daewoo Mangalian Heavy Industries' references for the hull structure

Project Features

- The vessel represents a new generation of high technology, purpose built offshore construction vessel
- The vessel is specially designed for operation in harsh weather conditions when high maneuverability and station keeping capabilities are required
- The conversion work was completed between 2013 and 2014

Additional Information

IMO number	9614608
