

Nukumi

Ship type	Bulk carrier
Shipowner	Canada Steamship Lines (CSL)
Shipyard	Chengxi Shipyard Co. Ltd

Copyright: shoreToShip, ShipSpotting.com

Main Dimensions

Dwt	25,800 t
GT	22,715
Capacity	25800 dwt
LOA	225.5 m
Beam	23.8 m
Draught	8.5 m

Project type	Ship status	Design scope	Delivery year
Newbuild	Delivered	Concept, Basic, Detail	2022

Scope of Work for the Shipowner

- Concept design for a new generation of self-unloading lake bulk carriers
- Project development and model testing
- Contract design

Scope of Work for the Shipyard

- Basic and detail design package
- Procurement and on-site technical support

Project Features

- The first diesel-electric laker and the first single point loader to operate in Canada
- Several innovations are integrated into the design to reduce the overall environmental footprint, including diesel-electric Tier 3 engines, a ballast water treatment system, a waste heat recovery system and quieter machinery
- Modern hull design and a state-of-the-art propulsion system enhance the vessel's maneuverability and increase navigation safety in shallow waterways

Additional Information

IMO number	9914711
Technologies	Scrubber, Battery
Special features	Laker with self-unloading (SUL) capability, single point loading (SPL), electric drive and twin fin design
