

Petrobaltic (conversion)

Ship type	Production platform, jack-up
Shipowner	LOTOS Petrobaltic S.A.
Shipyard	Remontowa Shiprepair Yard S.A.

Copyright: LOTOS Petrobaltic S.A.

Main Dimensions

Dwt	1,981 t
GT	6,605
Capacity	1,981 dwt
LOA	63.4 m
Beam	53.05 m
Draught	4.2 m

Project type	Ship status	Design scope	Delivery year
Conversion	Delivered	Detail	2013

Scope of Work for the Shipowner

- Piping and E&I engineering
- Pre-commissioning and commissioning support for the client
- Site engineering and client support at the shipyard
- New systems design and coordination
- Full as-built documentation for accommodation, processes, and structures
- Complex engineering support during conversion, installation, and start-up
- 3D model management

Project Features

- Conversion of a jack-up drilling rig into an offshore oil production rig
- Installation of a new power plant, accommodation, and Oil & Gas process and export modules
- Involvement in a complex project at the shipyard activities stage, covering a broad engineering scope
- Management of the entire design documentation and full engineering scope
- Provision of comprehensive engineering support for the commissioning of the power plant, water injection, gas compression, and all oil & gas processing systems
