Project type	Ship status	Design scope	Delivery year
Conversion	Delivered	Basic, Detail	2002

Scope of Work for the Shipowner

- Arrangement drawings
- Safety plans
- Classification drawings
- Basic design drawings for outfitting and systems
- Management of basic design

Scope of Work for the Shipyard

- Construction drawings
- HVAC and piping coordination plans
- Site assistance for steel and piping design

Project Features

- The ship had previously sailed in the Caribbean and Far East, and upon starting operations in the Baltic region, a comprehensive refurbishment was necessary
 - The conversion included adding a sliding pool cover, enlarging shopping areas, and rearranging conference areas and other public rooms
 - On the technical side, waste handling systems were modified, a new air conditioning system was installed for the covered pool area, and an ice-belt was added to ensure year-round operation
-
