Scope of Work for the Shipowner

- Supervision services consisting of tasks at Deltamarin in Finland, in subcontractors' factories across various European countries, and on-site at two IZAR shipyards in Spain (Seville and Cádiz)
- Deltamarin's experts reviewed primary design documents during the basic design phase in Finland and participated in factory acceptance tests of primary equipment across various European countries
- The on-site team, comprising a site manager, hull construction inspector, outfitting supervisor, machinery expert, and electrical engineer, oversaw ship construction and supervised and approved quay tests and sea trials
- Delivery assistance was provided to the owner during final acceptance meetings at the shipyard and IZAR's main office in Madrid
