Beam	10.4 m
Draught	2.5 m

Project type	Ship status	Design scope	Delivery year
Newbuild	Delivered	Detail	2002

Scope of Work for the Shipyard

- Detail design for machinery and piping for three engine rooms and the VSD room, including 3D modeling and production drawings for pipes, ventilation, cableways, equipment and foundations with shock damping, floor plates, and penetrations for pipes and cableways
- Site assistance

Project Features

- HSwMS Visby (K31) is the lead ship of the Swedish Navy's Visby-class corvettes
- The stealth technology is designed to reduce radar, hydroacoustic, magnetic, and optical signatures
- Stealth measures include special sandwich construction for the hull material, elastic mounting of equipment, depermed equipment, and concealed outlets
- Complete 3D model of the engine rooms

Additional Information

IMO number	265823000
Special features	Multi-purpose stealth corvette
