## Commission for the Shipyard

- ▶ Basic design including hull, part of the outfitting, interior, HVAC systems, and machinery diagrams
- ▶ Detail engineering for production purposes covering hull, deck outfitting, and mechanical engineering, including the coordination of the engine casing, car decks, and accommodation areas
- ▶ LNG Conversion: Prior to delivery, a decision was made to switch to LNG as the primary fuel. Deltamarin updated both the basic and detailed designs for the hull and machinery to facilitate the LNG conversion.

## Project Features

- ▶ The first cruise ferry in the world powered exclusively by LNG

## Main dimensions

Dwt	3 620
GT	31 678
Capacity	1369 pax / 1350 lm
LoA	170
Beam	27,5
Draught	6,4

## Additional Information

IMO Number	9586617
Ice class	1B
Technologies	LNG, SRtP
Sister vessels	<a href="#">Stavangerfjord</a>
