

Baltic Bright

Ship type RoRo	Ship owner Rederi AB Kungsvik	Shipyard Kockums AB Karlskronavarvet	Project type Newbuild
Ship status Delivered	Design scope Basic, Detail	Delivery year 1996	

Copyright: Karlskronavarvet AB

Commission for the Shipyard

- ▶ Complete basic and detail design package for hull, machinery, and outfitting
- ▶ Basic Design including weight calculations, General Arrangement, naval architectural calculations, hull classification documentation, outfitting arrangements, machinery arrangements, and system diagrams
- ▶ Detail Design including comprehensive steel design, full machinery and piping design, and complete outfitting design

Project Features

- ▶ The ship is designed for transporting paper from Sweden to England. She is also suitable for the transportation of trailers, containers and cars.
- ▶ Deltamarin handled all design coordination, relieving the yard of this responsibility
- ▶ The yard's own design organisation did not have to participate in the design and the yard's participation in the approval procedure of the basic design material was essentially smaller than normally
- ▶ A 3-dimensional engine room computer model was created
- ▶ Documentation was provided for each system for use by the owner's operational personnel

Main dimensions

Dwt	6 100
GT	9 708
Capacity	1068 Im
LoA	134,4
Beam	20
Draught	5,7

Additional Information

IMO Number	9129263
Ice class	1A
